VISITING ARTIST PROGRAM SCHOLARSHIP APPLICATION

Crealdé's Visiting Artist Program was created to expand the educational opportunities for emerging artists by providing specialized workshops to enhance our regular curriculum. National and regional artists lead these workshops. In addition, Crealdé's exhibiting artists offer workshops in conjunction with their exhibitions in the Alice and William Jenkins Gallery.

In total, Crealdé offers 15 or more workshops per year. Two scholarships per workshop are available to emerging artists and college students enrolled in visual art programs at area colleges and universities.

The Adult workshop scholarship program is designed to encourage participation among adult students that have an interest in the visual arts and limited funds.

- Please complete and return scholarship application two weeks prior to the workshop.
- Crealdé School of Art will provide equal consideration for scholarship awards to all students without regard to race, color, creed, physical ability, sex, age or national origin.
